SKILLS

Databricks, Pyspark, PyTorch, SQL, Git, PowerBI, Python, AWS (basics), Excel

numpy, pandas, scikit-learn, PyTorch

Certifications:

Databricks Machine Learning Associate
AWS Cloud Technical Essentials
Full Stack Open by Uni. of Helsinki

EDUCATION

MSc. (TECH) ML, DS and AI (SEP 2022 -)
BSc. (TECH) Data Science (SEP 19 - JUN 22)

Aalto University

Minor: Economics
BSc. GPA: 4.85 (out of 5)
Relevant Coursework: Deep Learning, AI, DS, Probabilistic ML, Bayesian Methods, Data Mining

PROJECTS

Finnish Housing Market Prediction w/ OP Bank: Predicted future Housing Market prices through Time Series methods.

IQ Growth Trends: Bayesian Analysis:
Developed a bayesian workflow analysing IQ growth trends over time, analysing convergence diagnostics & performance assessments.

LANGUAGES

Proficiency:

Native: English, Hindi & Bengali
Beginner: Finnish

PROFILE

Data Scientist with ~2 years of industry experience with ML in various domains (Finance, Technology, Telecommunications & Consulting). I enjoy leveraging the unbounded power of data to solve real-world business problems through machine learning, AI and statistics.

WORK EXPERIENCE

Data Scientist Trainee, Finance

KONE, Espoo May 2024 -

Financial Planning & Analysis Team

Developed forecasting tools modelling financial data to predict KPIs contributing to sales for the KONE services business (>\$4bn).

- Piloted integration of prediction models reducing error in human generated financial planning forecasts by ~62%.
- Performed ETL on large financial datasets (2mn+ rows) spanning 4 continents requiring parallelisation and distributed workflows with Spark.

Data Science & Analyst Trainee

Nokia, Espoo Jan 2023 - Apr 2024

Patent Analytics at Nokia Technologies

Data Science: Forecasted future patent submissions according to Technology Area using time series and other deep learning models.

Data Analysis:

- Analysed patent submission data, to create interactive data dashboards with Microsoft Power BI
- Produced essential KPI-driven analytics to support and improve upper-management decision-making processes

Research Trainee, Distributed Intelligence

Ericsson, Espoo Apr 2022 - Oct 2022

Intelligence Orchestration through Workflows

- Studied and researched state-of-the-art IoT technologies in instantiating and enabling distributed intelligence.
- Working on Proof-of-Concept for cutting-edge industrial IoT applications

Tech Analyst Intern

Deloitte, India Jul 2020 - Aug 2020

Consulting Function: S&MA Team

- Analysed data of 100+ Deloitte clients to predict dormancy in different clients using a various statistical and ML methods.

Teaching Assistant & Resource Developer

Aalto University (more on [LinkedIn](#)) Jan 2021 - Dec 2022
